Fuel Discount Programming for the Chevron and Texaco Cards Gilbarco POS (Passport V10, V11, V12, V20, V21, V22, & V23) as of May 2025

Overview

This document provides configuration changes required on the Gilbarco Passport V10, V11, V12, V20, V21, V22 & V23 to add/re-link the Chevron- and Texaco-branded card types to allow fuel discount. Stations that offer multi-tier pricing for motor fuel and extend the cash motor fuel price to Chevron- and Texaco-branded card transactions must configure their Gilbarco Passport POS system to process the cash motor fuel price for mobile app users paying with their Chevron- or Texaco-branded card.

You are responsible for ensuring that the correct value has been entered when programming for any discounted cash price and checking that the discounted amount is applied correctly.

Things to know:

- Check all card type fuel discount configurations after a new parameter table is received to ensure your customers are receiving your advertised discount
- Re-linking of card types to their Fuel Discount Group may be necessary when Passport receives a new Chevron network parameter table. This only affects sites with Passport POS that offer card type discounts
- New card types added to the parameter table that may be necessary to add to their fuel discount program must be manually linked to their appropriate Fuel Discount Group
- Contact your POS Help Desk Support if assistance needed

Step 1 - Determine what parameter table Passport is using

A. Sign on to a Cashier Workstation.

**B.** V10, V11, V12, & V20: Select the Network Functions button.

V21, V22 & V23: Select the Network button.

C. Select the Network Config button.
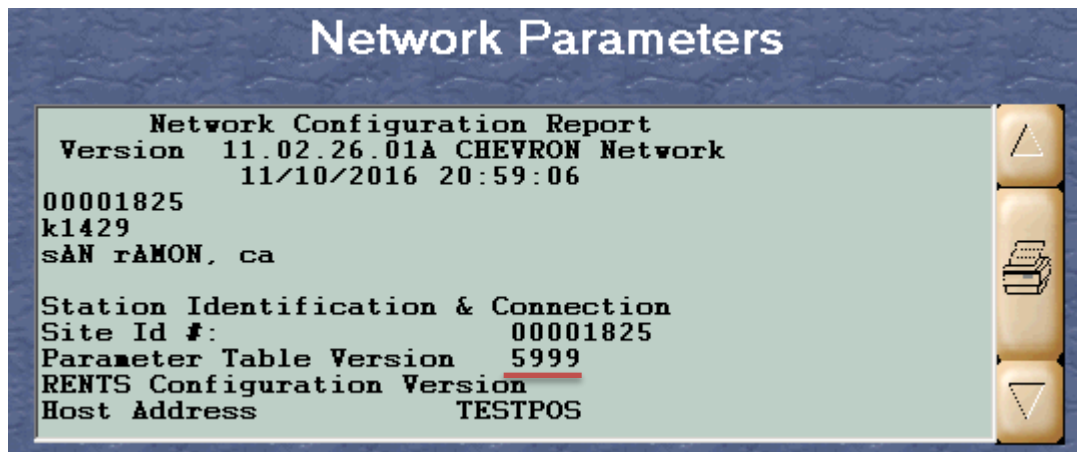

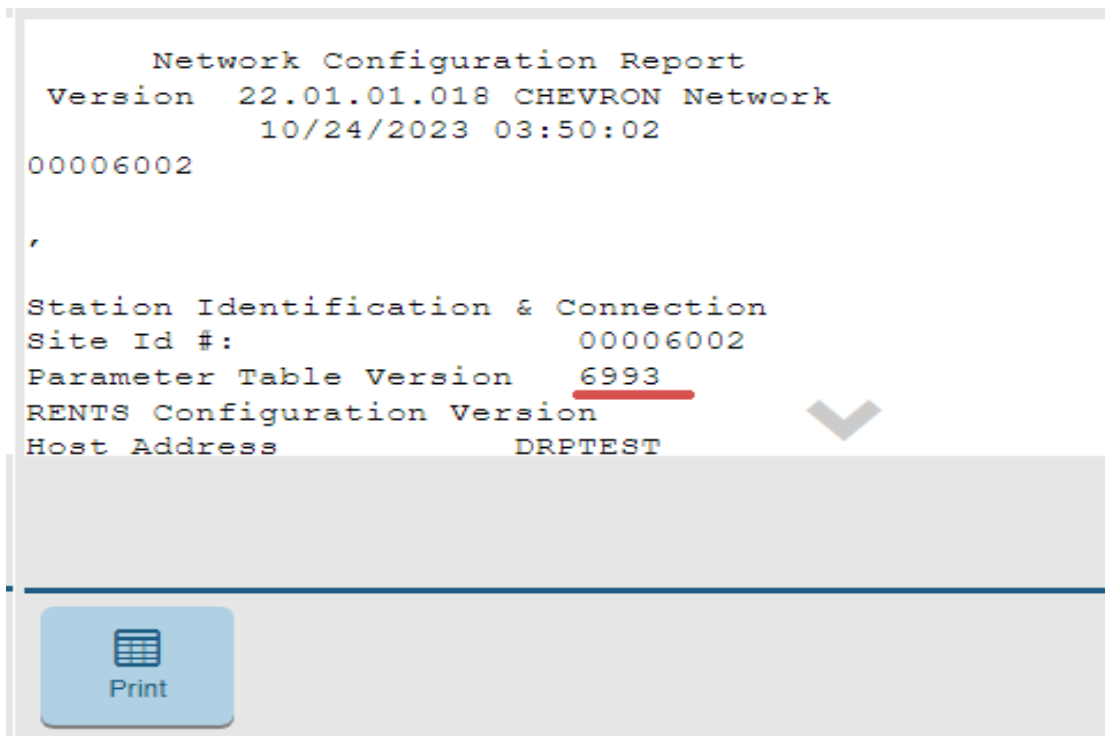

V10, V11, V12, & V20:

V21, V22 & V23:

D. The Network Parameters screen will display the Parameter Table Version number. V10, V11, V12, & V20:

```
                 Network Parameters

Verify that the Fuel Discount Group still exists. The Fuel Discount Group is required to configure fuel discounts by card type. See Groups on page 40.

E. From the "server" Cashier Workstation, select the Tools button to access the Manager Workstation.
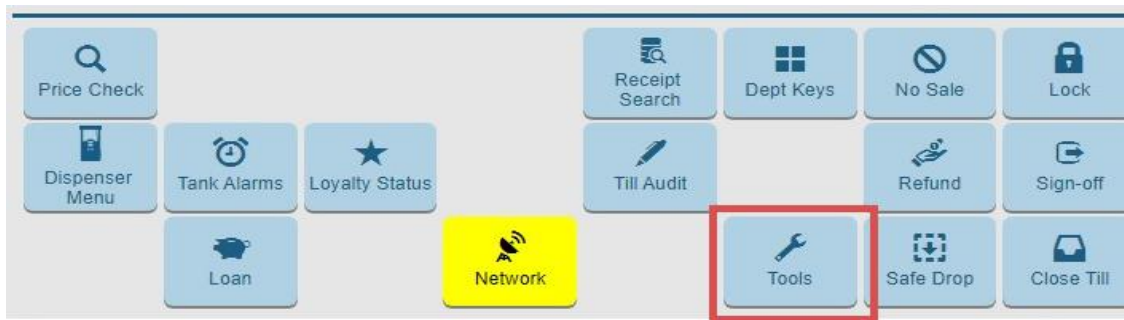

V10, V11, V12, & V20:

V21, V22 & V23:

F. V11, V12, V20: Select the Mgr Wkstn button.

V21, V22 & V23: Select the Manager Workstation button.

G. From the Manager Workstation menu, select the Fuel button.
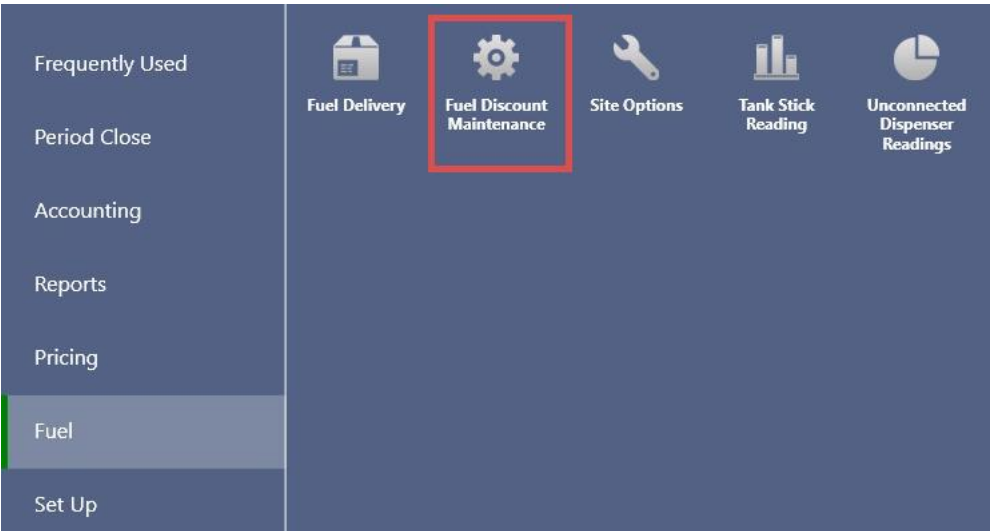

V10 & V11:

V12, V20, V21, V22 & V23:

H. From the Fuel menu, select the Fuel Discount Maintenance button.

V10 & V11:

V12, V20, V21, V22 & V23:

I. Select the Fuel Discount Groups tab and a discount group for Chevron and Texaco cards should display. In this example, a discount group named "Same As Cash", is configured for Chevron and Texaco card use.

If a discount group is configured for Chevron and Texaco card is displayed, go to Step 2 on Page 10 for instructions to verify the proper card account number range names are linked to the discount group.

If a discount group for Chevron and Texaco card is not displayed, continue with instruction #10 to configure one. Reminder, "Same as Cash" is an example only. Also note this example assumes a ten cent per gallon difference between a site's Cash and Credit prices for each grade.

J. Select the Add button to begin adding a fuel discount group.

K. Type a name for the discount group in the Discount Group Name text box.

Discount Group

| Fuel Discount Groups | Manual Fuel Discounts | Fuel Discounts by Car Wash | Fuel Discounts by Cash |

Discount Group Name   Same As Cash

L. Add the discount amount in the Amount off PPU box adjacent to each fuel to be discounted. To add a discount amount for a fuel grade:
   a. Double click the Amount off PPU box located to the right of a fuel grade name box. A blinking cursor should be to the right of the fuel discount amount (0.000).
   b. Using the keyboard, type the PPG discount amount and press the Enter key (for this example, the keystrokes would be "1" "0" "0" followed by pressing the Enter key).
   c. Repeat the first two steps for each fuel grade to be discounted.
   d. When finished entering in the discounts for the fuel discount group, select the Save button.

M. The discount group (for this example only) should look like this:

Discount Group

| Fuel Discount Groups | Manual Fuel Discounts | Fuel Discounts by Car Wash | Fuel Discounts by Cash |

Same As Cash

Discount Group Name   Same As Cash

Grade Name	Amount off PPU
UNLEAD REG	0.100
PLS BLEND51	0.100
UNL SUP US	0.100
ULS DSL #2	0.100

## Step 2 – Check and re-link card types and/or add card types to the fuel discount group

A. From Fuel Discount Maintenance, navigate to Fuel Discount Configuration following the below steps:

    a. Select the Exit button to access the Fuel menu.

    b. Select the Back button to return to the Manager Workstation.
        V10, V11, & V12:

    c.   Select the Set Up button to access the Set Up menu.
   V10 & V11:

V12, V20, V21, V22 & V23:

Set Up

d. Select the Network button to access the Network menu.

V10 & V11:

Set Up

Forecourt
Network

RFID Configuration

V12, V20, V21, V22 & V23:

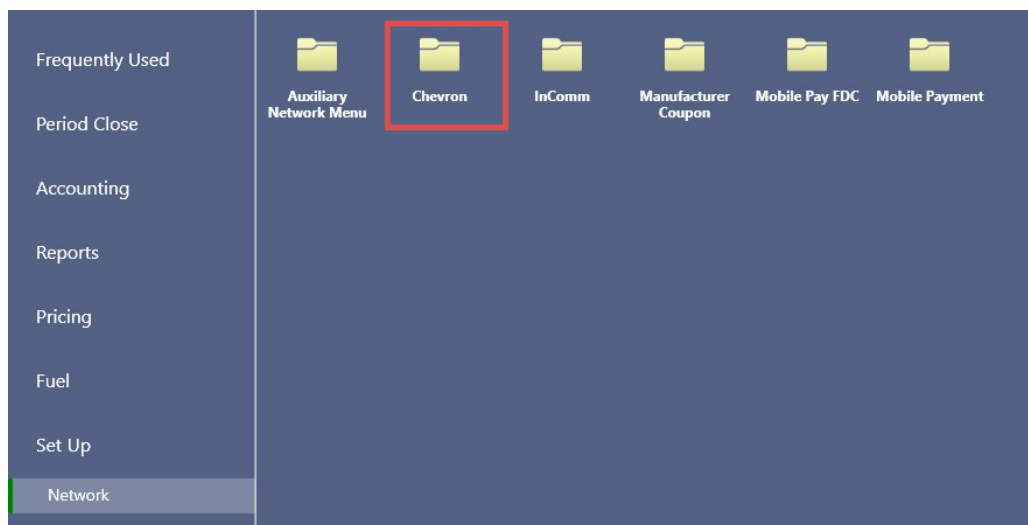

e. Select the Chevron button to access the Chevron network menu.
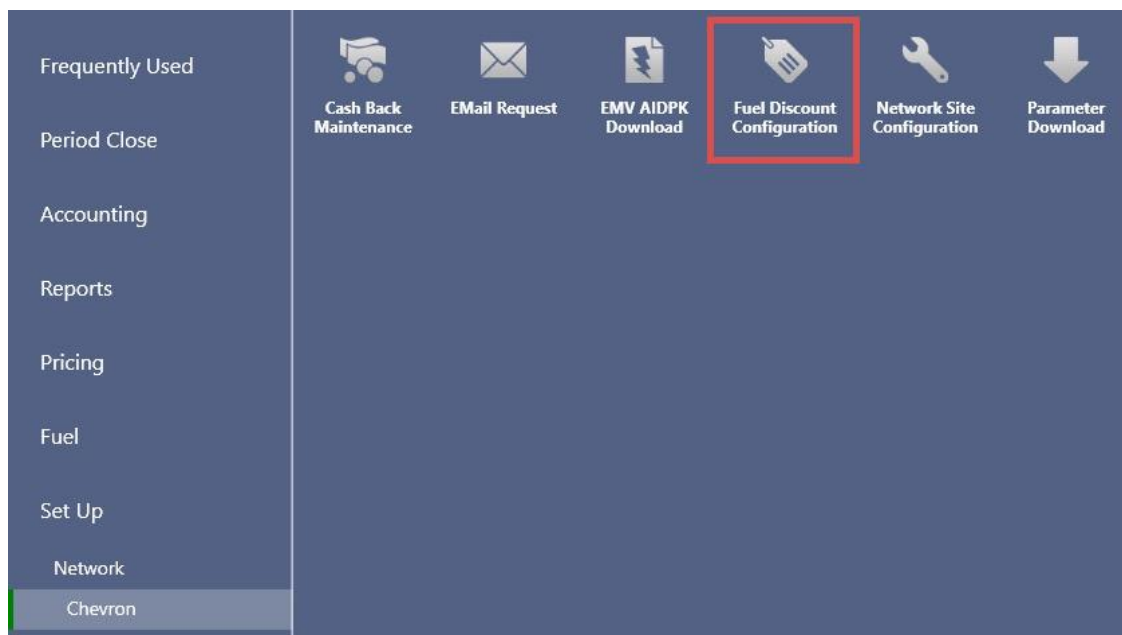

V10 & V11:

V12, V20, V21, V22, & V23:

f. From the Chevron network menu, select the Fuel Discount Configuration button to access the Fuel Discount Configuration screen.
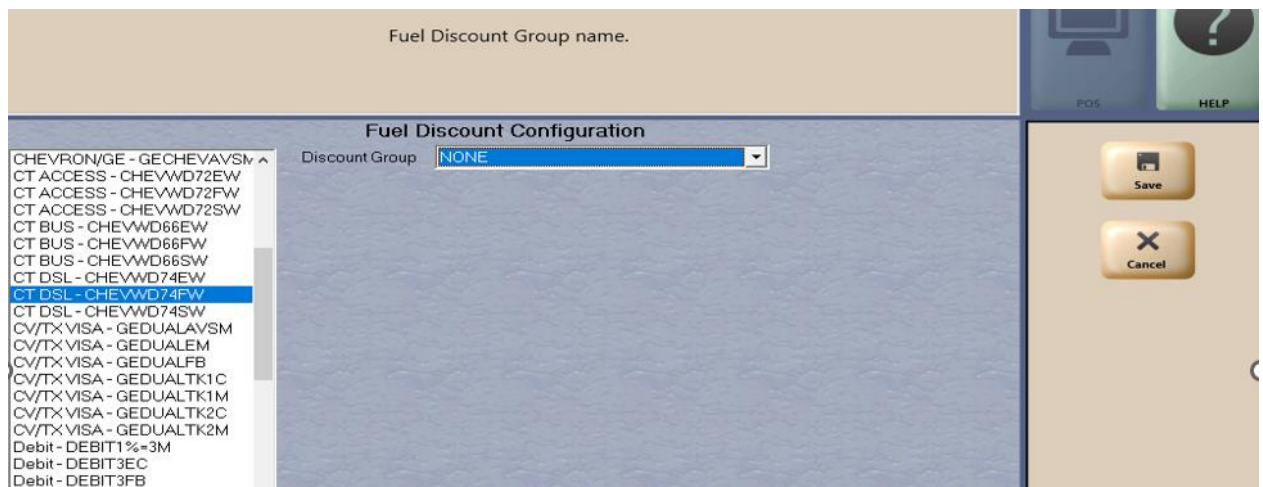

V10 & V11

V12, V20, V21, V22, & V23:

B. In the Fuel Discount Configuration Screen, select (to highlight) a card type name (represents an account number range) from the menu on the left side of the screen, and then select the fuel discount group from the Discount Group drop down box. This links the selected card type to the discount group. In this example, a card type represented by the name "CHEV/GE-GECHEVUS" has been linked to the fuel discount group "Same As Cash".
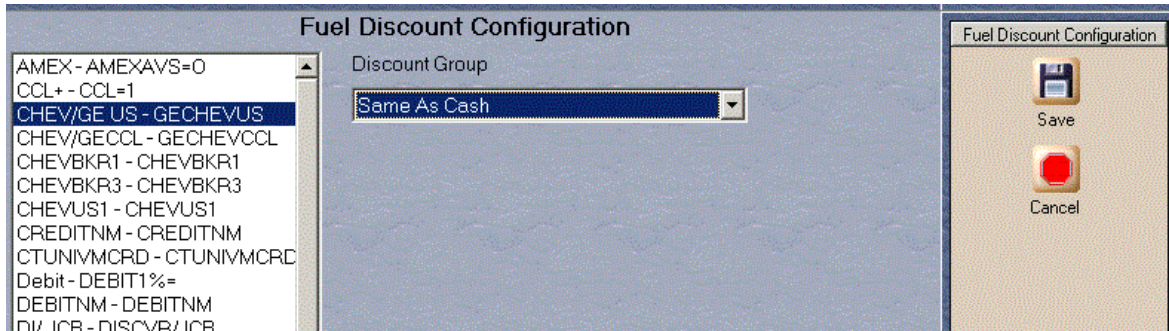

C. For each card type that needs to be re-linked or added to the discount group, repeat the process of selecting a name from the list and then selecting the discount group from the Discount Group drop down box. Note: the names on a site's Fuel Discount Configuration screen will not be the same as shown in this example as names are unique to the specific parameter table downloaded to a Passport. The Chevron and Texaco card type names for common parameter tables as of May 2025 are listed in the table beginning on page 40, and they are subject to change.

D. To disable discount group for a card type, select a card type name from the menu on the left side of the screen and then select "NONE" from the Discount Group drop down box. In the below example, a card type represented by the name "CT DSL-CHEVWD74FW" has been linked to the fuel discount group "NONE" to disable it.

E. After adding/ disabling card types has been completed, select the Save button to save the changes.

F. After saving, selecting the Back button three times will return to the Manager Workstation menu.
V10, V11, & V12:

G. Selecting the POS button will return to the Cashier Workstation.
V10, V11, & V12:

V20, V21, V22 & V23:

Step 3 – Configure for Mobile App transactions that use Chevron and Texaco, Chevron and Texaco VISA or Chevron and Texaco eGiftcards and ePromo Cards:

    A. From the Manager Workstation menu, select the Set Up button:
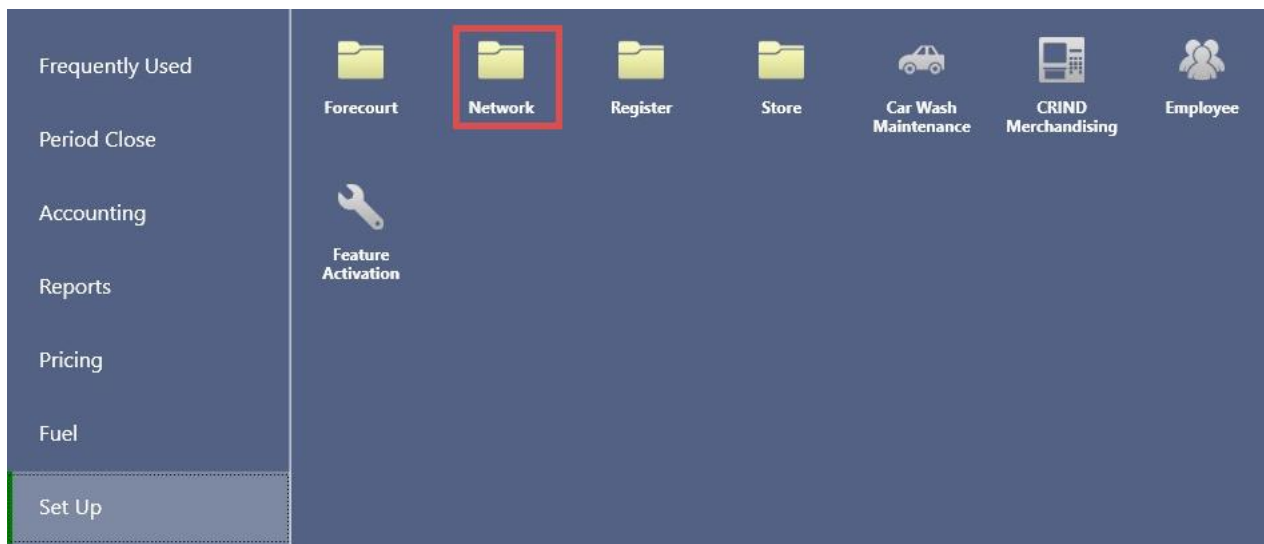

V10 & V11:

V12, V20, V21, V22 & V23:

B. From the Set-Up menu, select the Network button:
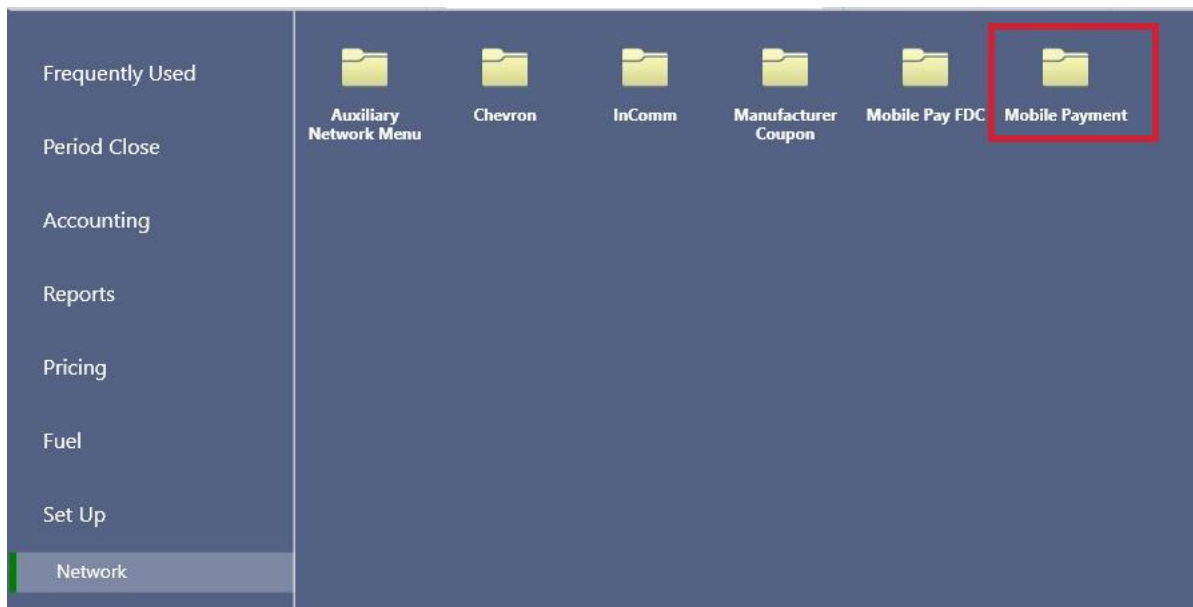

V10, V11 & V12:

V20, V21, V22, & V23:

C. From the Network menu, select the Mobile Payment button:
V10, V11 & V12:

V20, V21, V22 & V23:

D . From the Mobile Payment menu, select the Fuel Discount Configuration button:
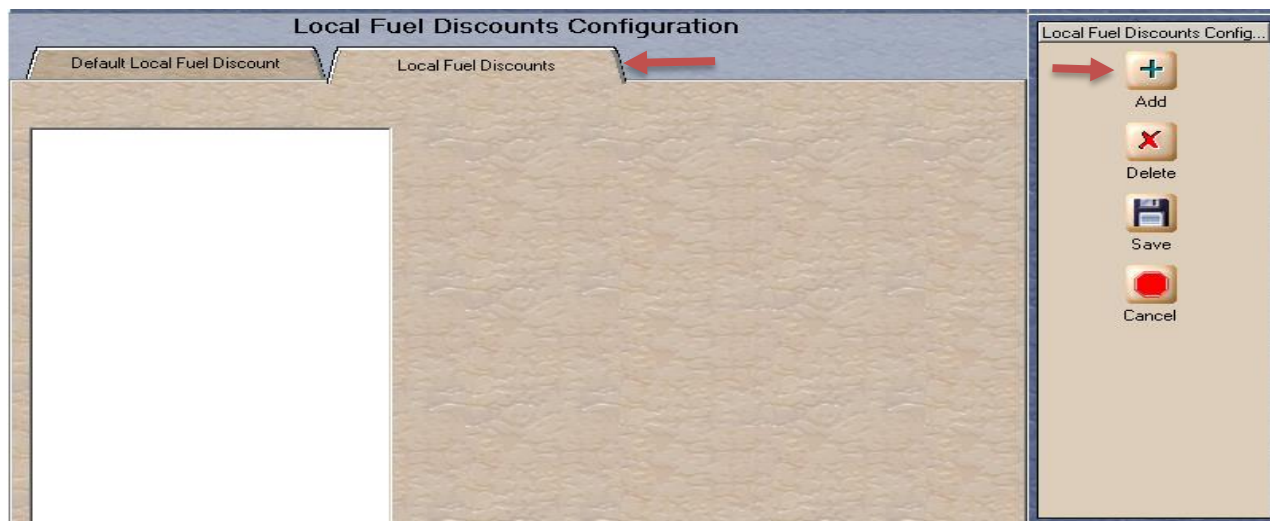

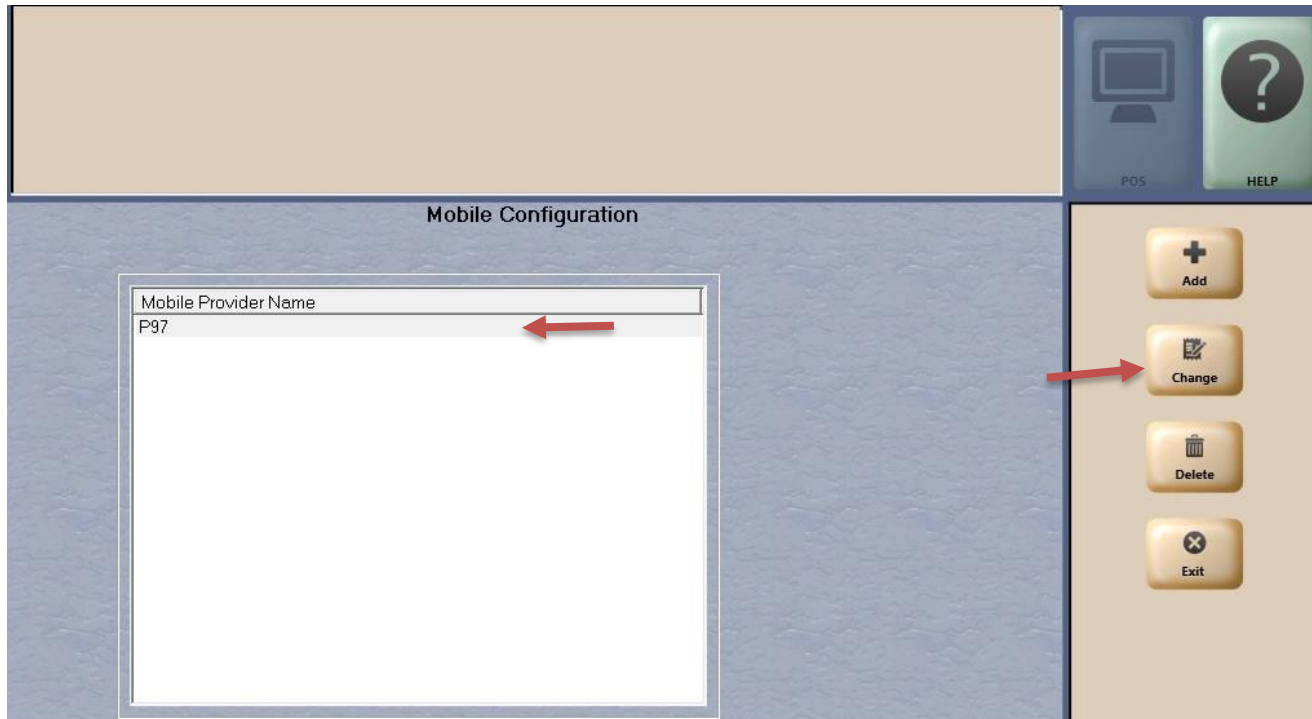

V10 & V11:

V12:

V20, V21, V22, & V23: From the Mobile Payment menu, select the Mobile Payment Configuration button.

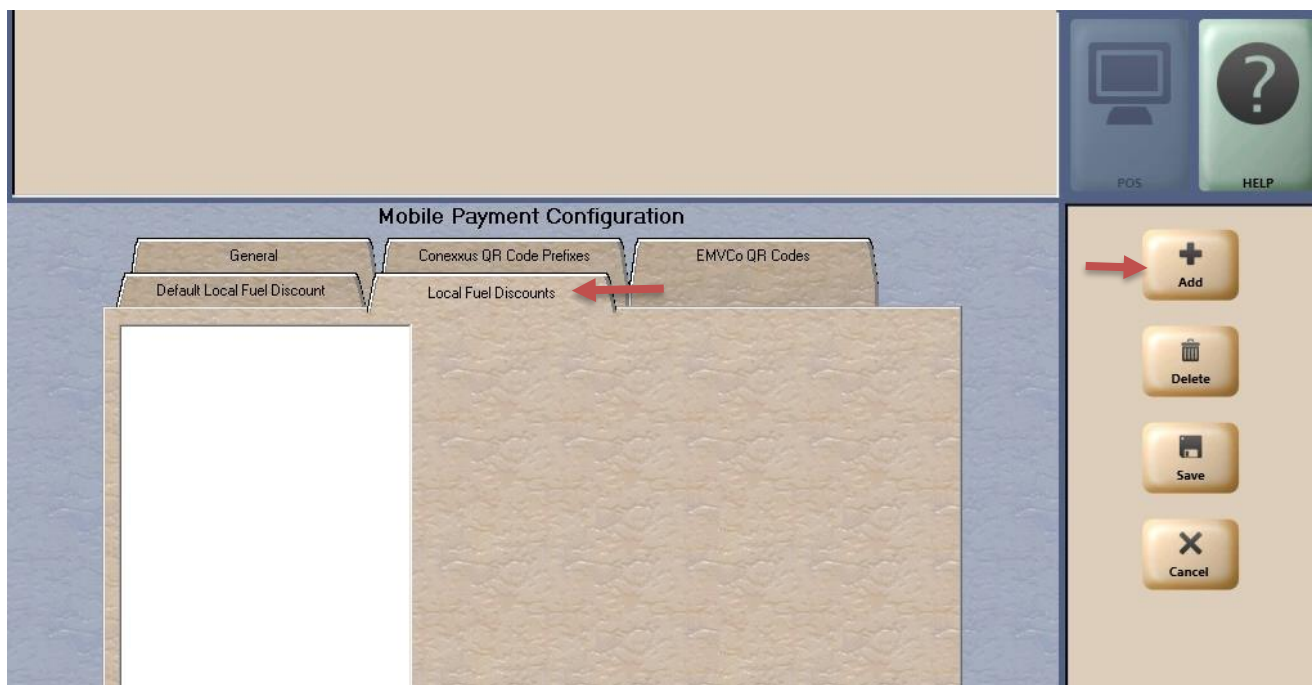

E. On the Local Fuel Discounts Configuration screen, click on the Local Fuel Discounts tab, and then select the Add button:
V10, V11, & V12:

V20, V21, V22 & V23:A On the Mobile Configuration, Select the 'Mobile Provider Name' and then click on "Change" button.

On the Mobile Payment Configuration screen, click on the Local Fuel Discounts tab, and then select the Add button:

F. Add a mobile payment fuel discount for Chevron and Texaco card use by doing the following:

      a. Type "CHEVRON" in the Mobile Local Discount Code text box.
NOTE: When entering the card name it is case sensitive and must be entered exactly as shown.

      b. Type "App Based" in the Mobile Local Discount Description text box.
      c. Select "Same as Cash" in the Fuel Discount Group drop down box.
      d. You do not need to select the Save button at this time.

V10, V11, & V12:

V20, V21, V22 & V23:

G. Add a mobile payment fuel discount for ChevronVISA card use by doing the following:

    a. Select the Add button (adds a new Local Fuel Discounts configuration screen).
    b. Type "CHEVRONVISA" in the Mobile Local Discount Code text box.
       NOTE: When entering the card name it is case sensitive and must be entered exactly as shown.
    c. Type "App Based" in the Mobile Local Discount Description text box.
    d. Select "Same as Cash" in the Fuel Discount Group drop down box.

V10, V11, & V12:

V20, V21, V22 & V23:

H. Add a mobile payment fuel discount for Chevron and Texaco card use by doing the following:

    a. Type "TEXACO" in the Mobile Local Discount Code text box.
       NOTE: When entering the card name it is case sensitive and must be entered exactly as shown.
    b. Type "App Based" in the Mobile Local Discount Description text box.
    c. Select "Same as Cash" in the Fuel Discount Group drop down box.
    d. You do not need to select the Save button at this time.

V10, V11, & V12:

V20, V21, V22 & V23:

I. Add a mobile payment fuel discount for Texaco Gift Card use by doing the following:

    a. Select the Add button (adds a new Local Fuel Discounts configuration screen).
    b. Type "CHEVRONTEXACO EGIFT" in the Mobile Local Discount Code text box.
       NOTE: When entering the card name it is case sensitive and must be entered exactly as shown.
    c. Type "App Based" in the Mobile Local Discount Description text box.
    d. Select "Same as Cash" in the Fuel Discount Group drop down box.

V10, V11, & V12:

V20, V21, V22 & V23:

J. Add a mobile payment fuel discount for ePromo Card by doing the following:

    a. Select the Add button (adds a new Local Fuel Discounts configuration screen).

    b. Type "EGIFTCHEVRONPRTEXACO" in the Mobile Local Discount Code text box.

    NOTE: When entering the card name it is case sensitive and must be entered exactly as shown.

    c. Type "App Based" in the Mobile Local Discount Description text box.

    d. Select "Same as Cash" in the Fuel Discount Group drop down box.

V10, V11, & V12:

V20, V21, V22 & V23:

K. To save these mobile payment local fuel discounts, select the Save button (when the configured discounts are saved, you will see the Mobile Payment menu):

V10, V11, & V12:

Return to Fuel Discount Configuration to confirm your programming changes were saved and are correct.

To exit without checking your changes:

- Select the Back arrow three times to return to the Manager Workstation menu, and you are done!

To exit after checking your changes:

- Select the Cancel button, select No (because your changes are already saved), and select the Back arrow three times to return to the Manager Workstation menu - you are done!

V20, V21, V22, & V23:

To save these mobile payment local fuel discounts, click on the Save button

When the configured discounts are saved, you will see the Mobile Configuration Page
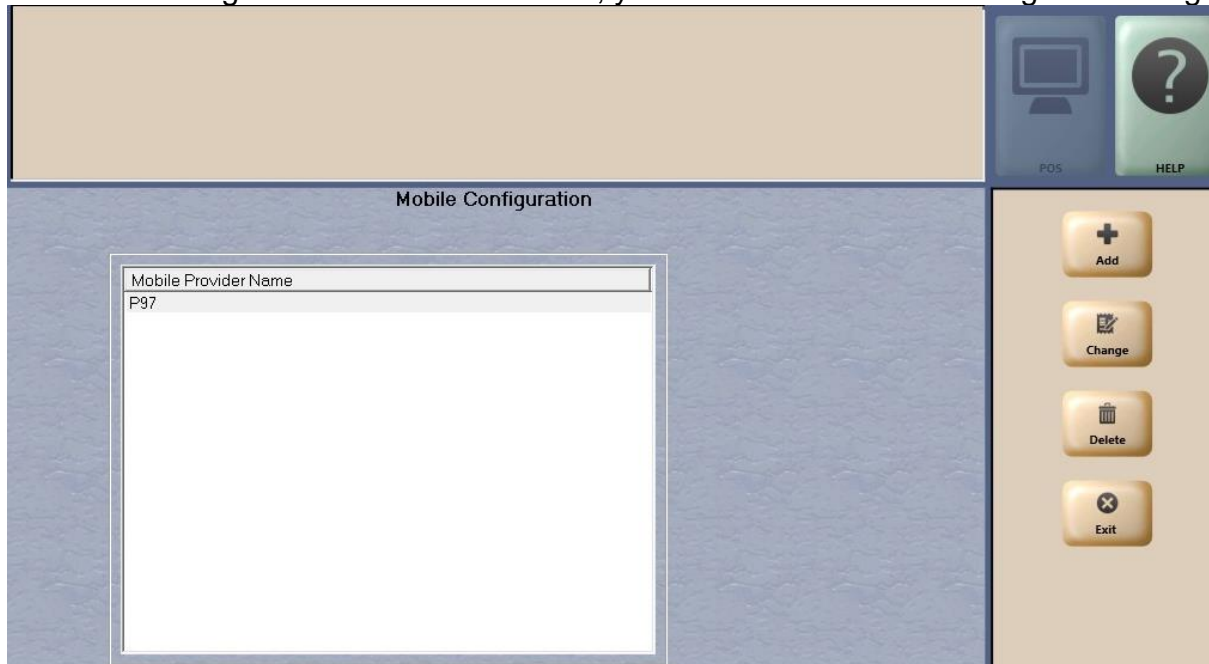

To exit without checking your changes:

- Click on exit button in Mobile Configuration to page to return to the Manager Workstation menu, and you are done!

Congratulations! You are done!

Please contact the Gilbarco Help Desk at 1-800-743-7498
if you have questions.

There are several hundred card payment parameter tables configured on the Chevron network. The Chevron card payment network team has added card records for three new Chevron card types to <u>all</u> parameter tables. Commonly used parameter tables are listed in the tables that follow; however, if the Parameter Table Version number in Passport's Network Parameters screen cannot be found in these tables, then one of the following groupings of three Chevron and Texaco card type names will be found in the Fuel Discount Configuration screen. Add those three Chevron and Texaco card type names to the following Chevron and Texaco card type fuel discount groups:

Grouping 1:

Fuel Discount Configuration Card Type Name	Card Type
CT ACCESS-CHEVWD72I	Chevron Business Access (WEX supported)
CT BUS-CHEVWD66I	Chevron Business (WEX supported)
~~CT DSL-CHEVWD74I*~~	~~Chevron Business Diesel (WEX supported)~~

<u>Or</u>

Grouping 2:

Fuel Discount Configuration Card Type Name	Card Type
CT ACCESS-CHEVWD72L	Chevron Business Access (WEX supported)
CT BUS-CHEVWD66L	Chevron Business (WEX supported)
~~CT DSL-CHEVWD74L*~~	~~Chevron Business Diesel (WEX supported)~~

*Note: Please follow step 2.D to disable the strikethrough entry from the existing configuration

For parameter table numbers 6060, 6061, 6160, 6161, 6181.

Fuel Discount Configuration Card Type Name	Card Type
CHEVRON/GE-GECHEVAVSM	Chevron Auto Network
CHEV/CCARE-SYNAUTOCS2	Chevron Auto Network
