

Fuel Discount Programming for the Chevron and Texaco Cards Passport POS (Gilbarco Passport V10, V11, V12, V20, V21 & V22) as of October 2023

Overview

This document provides configuration changes required on the Gilbarco Passport V10, V11, V12, V20, V21 & V22 to add/re-link the Chevron- and Texaco-branded card types to allow fuel discount. Stations that offer multi-tier pricing for motor fuel and extend the cash motor fuel price to Chevron- and Texaco-branded card transactions must configure their Gilbarco Passport POS system to process the cash motor fuel price for mobile app users paying with their Chevron- or Texaco-branded card.

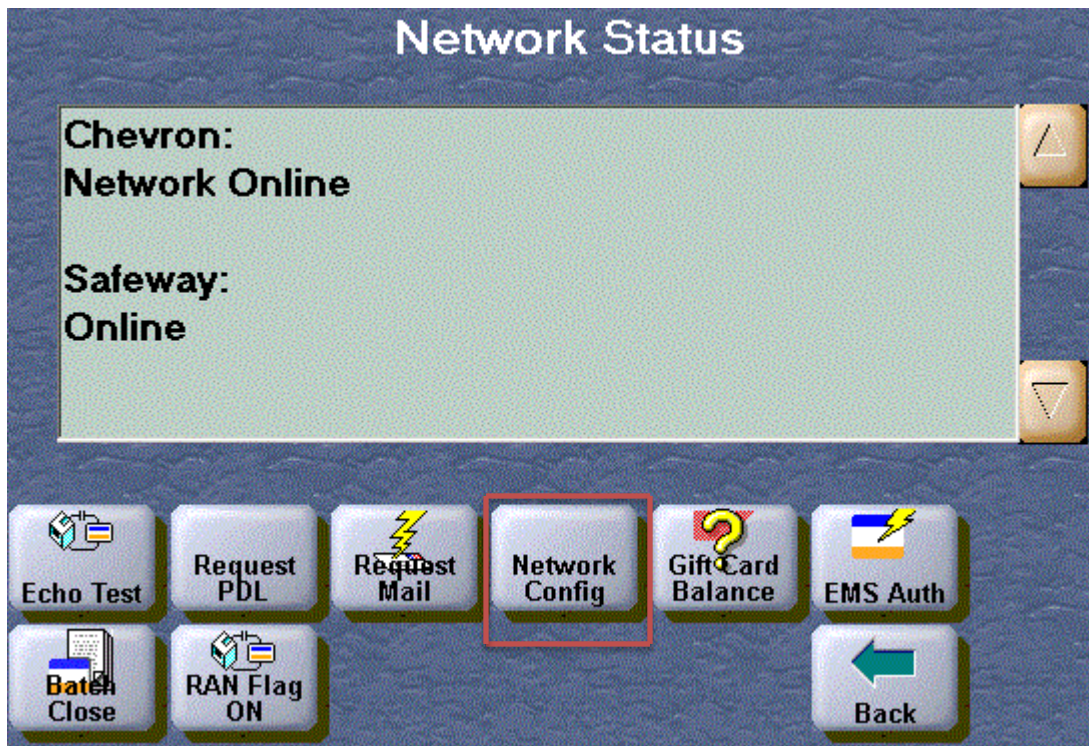

You are responsible for ensuring that the correct value has been entered when programming for any discounted cash price and checking that the discounted amount is applied correctly.

Things to know:

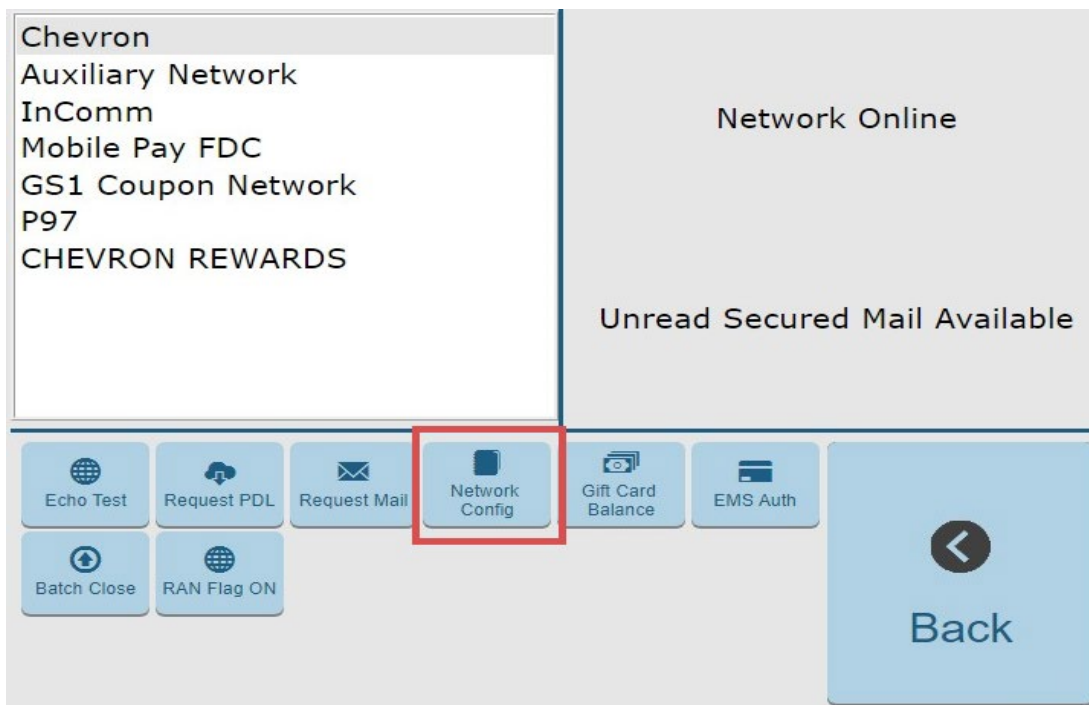

- Check all card type fuel discount configurations after a new parameter table is received to ensure your customers are receiving your advertised discount
- Re-linking of card types to their Fuel Discount Group MAY be necessary when Passport receives a new Chevron network parameter table. This only affects sites with Passport POS that offer card type discounts
- New card types added to the parameter table that may be necessary to add to their fuel discount program must be manually linked to their appropriate Fuel Discount Group
- Contact your POS Help Desk Support if assistance needed

C. Select the Network Config button.

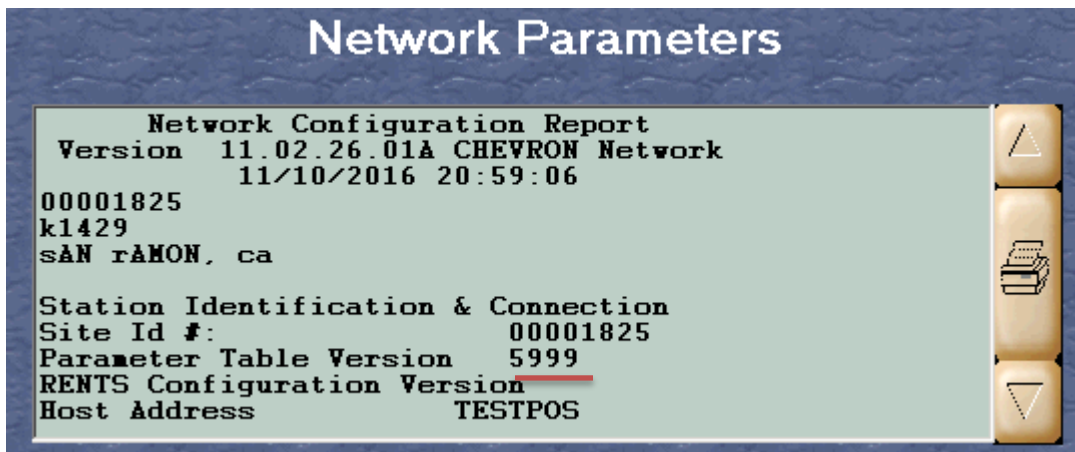

V10, V11, V12, & V20:

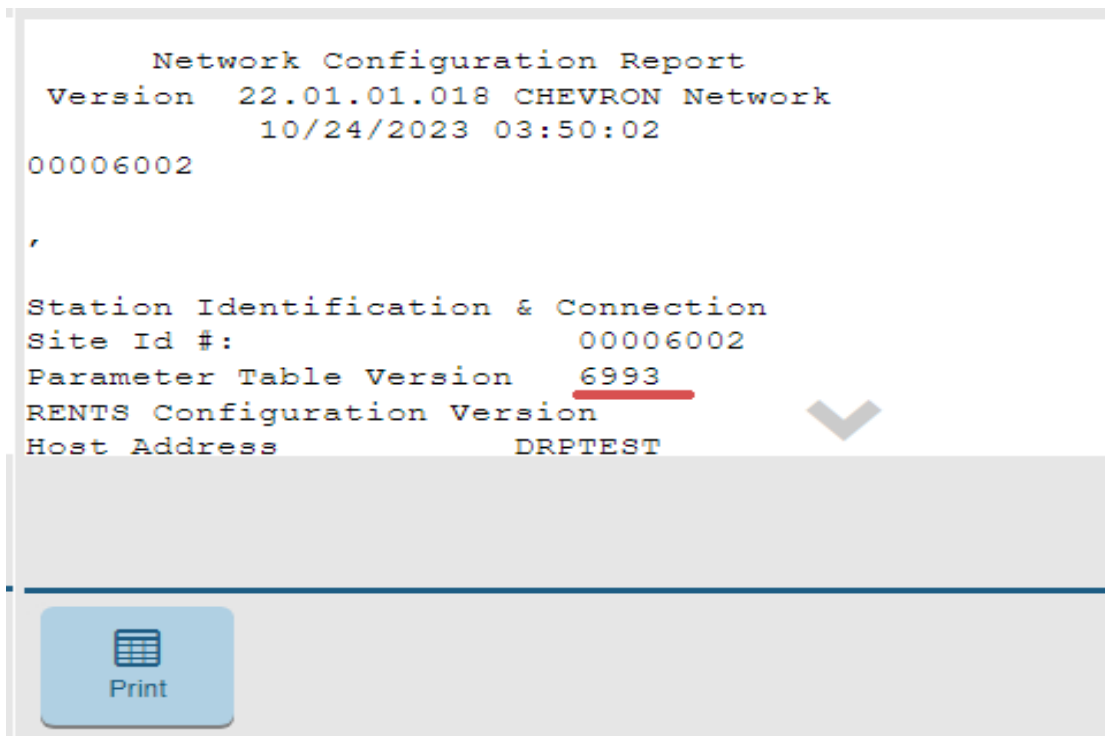

V21 & V22:

- D. The Network Parameters screen will display the Parameter Table Version number.
V10, V11, V12, & V20:

V21 & V22:

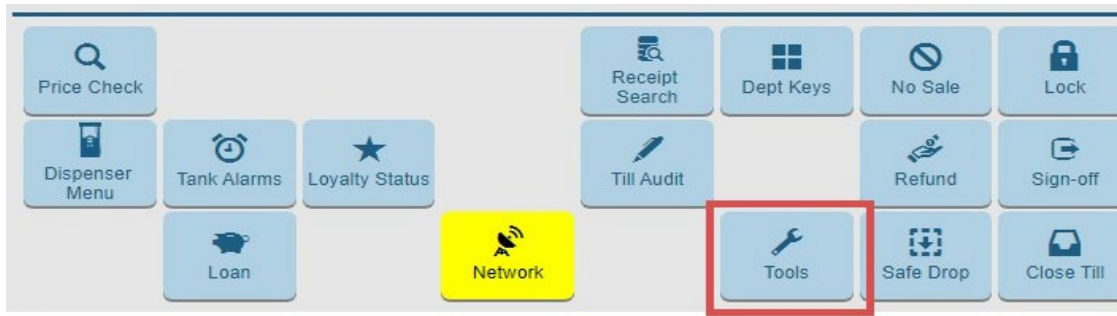

Verify that the Fuel Discount Group still exists. The Fuel Discount Group is required to configure fuel discounts by card type. See [Groups](#).

- E. From the “server” Cashier Workstation, select the Tools button to access the Manager Workstation.

V10, V11, V12, & V20:

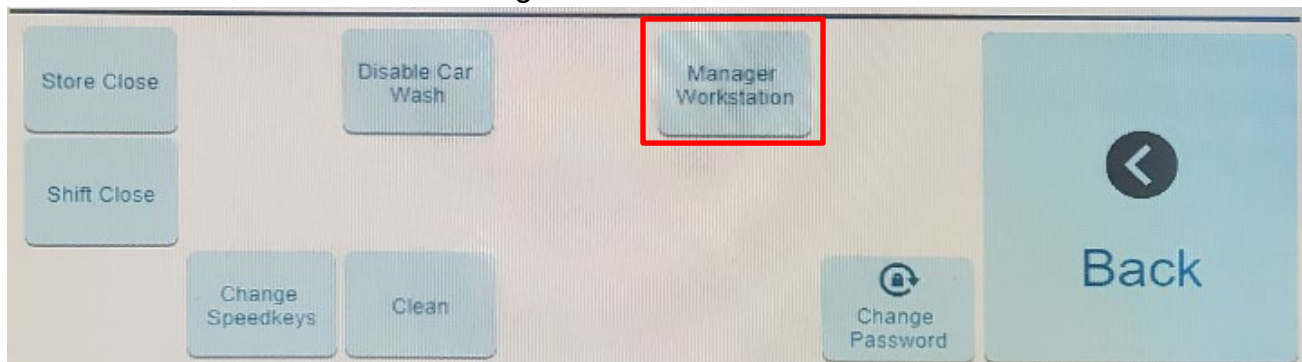

V21 & V22:

- F. V11, V12, V20: Select the Mgr Wkstn button.

V21 & V22: Select the Manager Workstation button.

G. From the Manager Workstation menu, select the Fuel button.

V10 & V11:

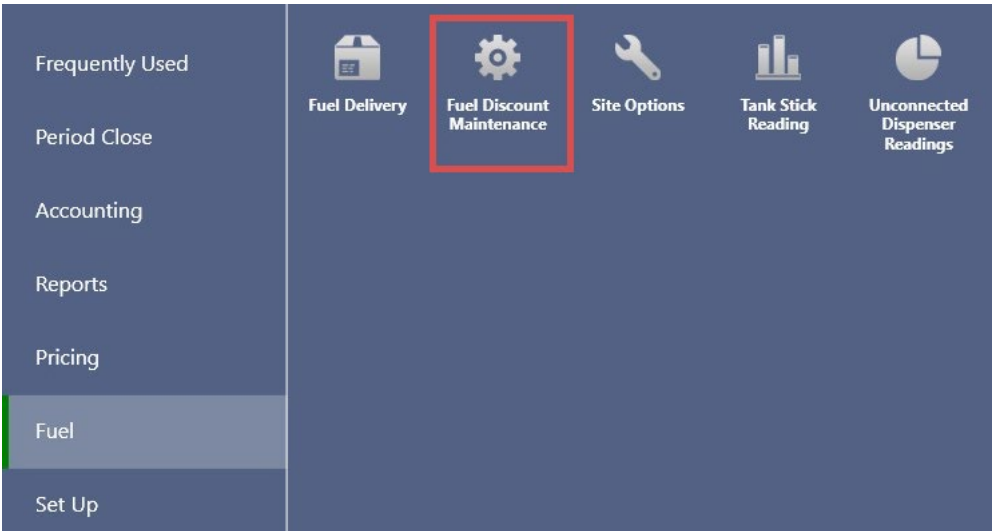

V12, V20, V21 & V22:

H. From the Fuel menu, select the Fuel Discount Maintenance button.
V10 & V11:

V12, V20, V21, & V22:

- I. Select the Fuel Discount Groups tab and a discount group for Chevron and Texaco cards should display. In this example, a discount group named "Same As Cash", is configured for Chevron and Texaco card use.

The screenshot shows the 'Discount Group' window with the 'Fuel Discount Groups' tab selected. The 'Discount Group Name' field contains 'Same As Cash'. Below this is a table with fuel grades and their corresponding discounts.

Grade Name	Amount off PPU
UNLEAD REG	0.100
PLS BLEND51	0.100
UNL SUP US	0.100
ULS DSL #2	0.100

If a discount group is configured for Chevron and Texaco card is displayed, [go to Step 2](#) for instructions to verify the proper card account number range names are linked to the discount group.

If a discount group for Chevron and Texaco card is not displayed, continue with instruction #10 to configure one. Reminder, "Same as Cash" is an example only. Also note this example assumes a ten cent per gallon difference between a site's Cash and Credit prices for each grade.

- J. Select the Add button to begin adding a fuel discount group.

The screenshot shows the 'Discount Group' window with the 'Fuel Discount Groups' tab selected. The 'Discount Group Name' field is empty. Below this is a table with fuel grades and their corresponding discounts. On the right side, there is a 'Fuel Discount' panel with buttons for 'Add', 'Change', 'Delete', and 'Exit'. A red arrow points to the 'Add' button.

Grade Name	Amount off PPU
UNLEAD REG	0.000
PLS BLEND51	0.000
UNL SUP US	0.000
ULS DSL #2	0.000

K. Type a name for the discount group in the Discount Group Name text box.

The screenshot shows a software interface titled "Discount Group". It has four tabs: "Fuel Discount Groups", "Manual Fuel Discounts", "Fuel Discounts by Car Wash", and "Fuel Discounts by Cash". The "Fuel Discount Groups" tab is selected. Below the tabs, there is a text box labeled "Discount Group Name" containing the text "Same As Cash". A red arrow points to the end of the text in the box.

L. Add the discount amount in the Amount off PPU box adjacent to each fuel to be discounted. To add a discount amount for a fuel grade:

- Double click the Amount off PPU box located to the right of a fuel grade name box. A blinking cursor should be to the right of the fuel discount amount (0.000).
- Using the keyboard, type the PPG discount amount and press the Enter key (for this example, the keystrokes would be "1" "0" "0" followed by pressing the Enter key).
- Repeat the first two steps for each fuel grade to be discounted.
- When finished entering in the discounts for the fuel discount group, select the Save button.

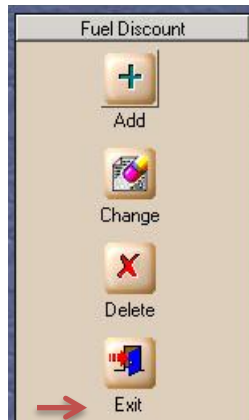

M. The discount group (for this example only) should look like this:

The screenshot shows the "Discount Group" form with the "Fuel Discount Groups" tab selected. The "Discount Group Name" field contains "Same As Cash". Below this is a table with two columns: "Grade Name" and "Amount off PPU". The table contains four rows of data. To the right of the form, there are two buttons: "Save" (highlighted with a red box) and "Cancel".

Grade Name	Amount off PPU
UNLEAD REG	0.100
UNLEAD PLS	0.100
UNL SUP US	0.100
REG DSL #2	0.100

Step 2 – Check and re-link card types and/or add card types to the fuel discount group

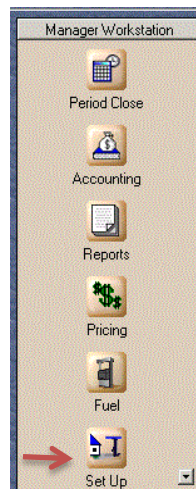

- A. From Fuel Discount Maintenance, navigate to Fuel Discount Configuration following the below steps:
- Select the Exit button to access the Fuel menu.

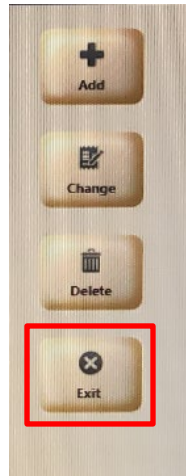

- Select the Back button to return to the Manager Workstation.
V10, V11, & V12:

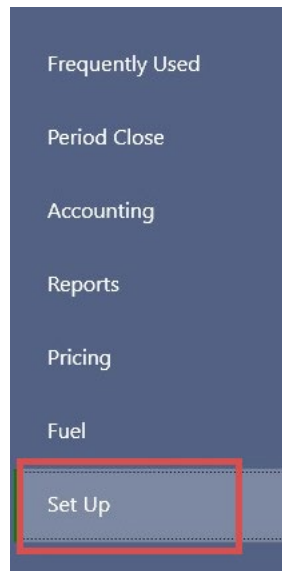

- Select the Set Up button to access the Set Up menu.
V10 & V11:

- d. Select the Exit button on the discount group screen.
V12, V20, V21 & V22

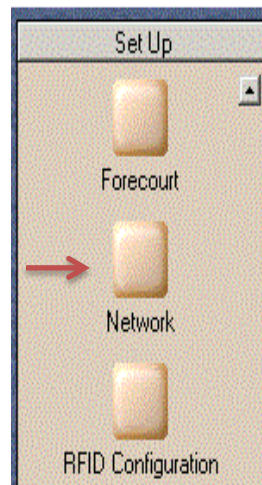

- e. Select the Set Up button to access the Set Up menu.
V12, V20, V21 & V22:

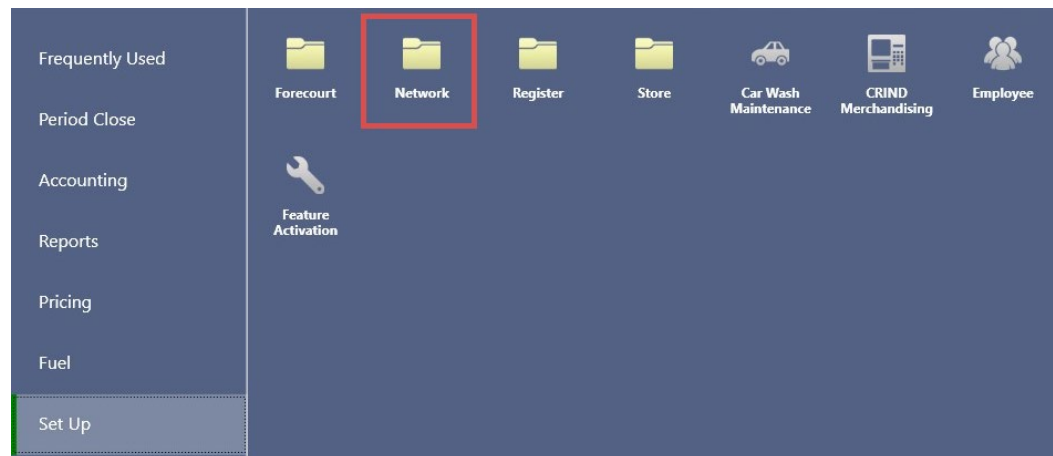

f. Select the Network button to access the Network menu.

V10 & V11:

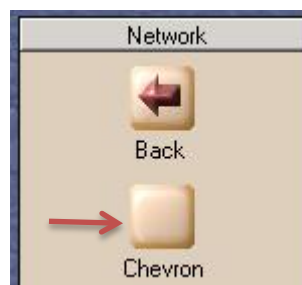

V12, V20, V21, & V22:

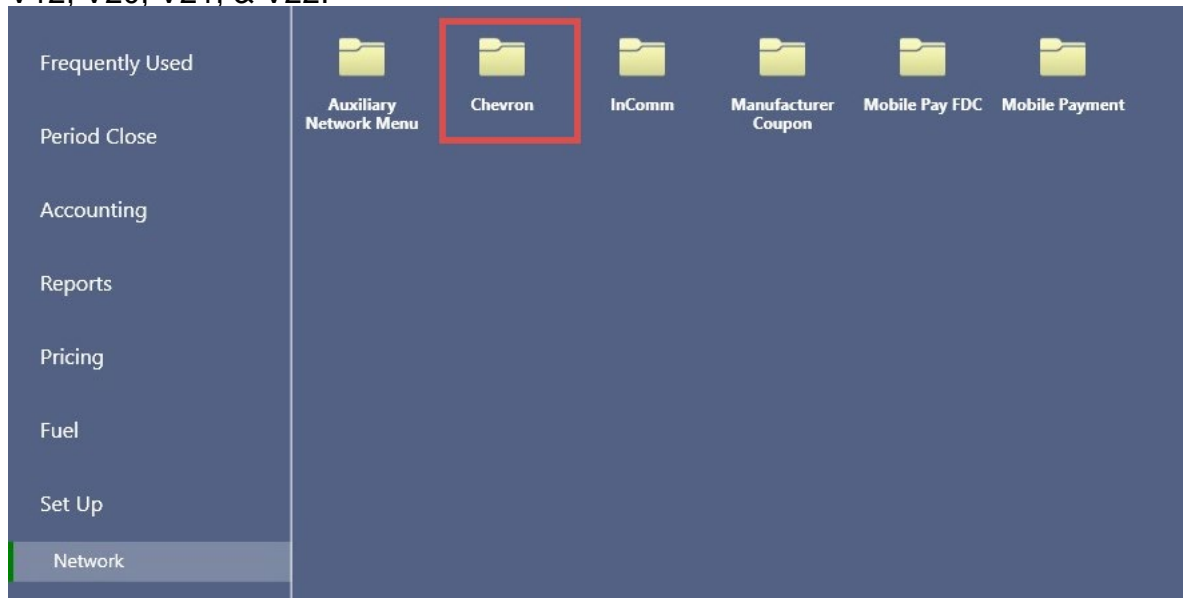

g. Select the Chevron button to access the Chevron network menu.

V10 & V11:

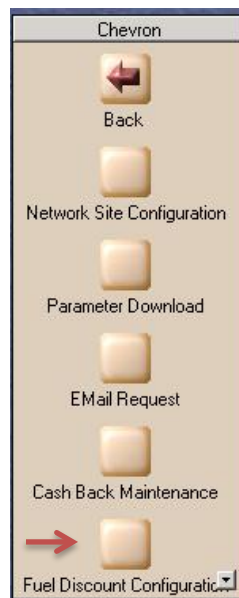

V12, V20, V21, & V22:

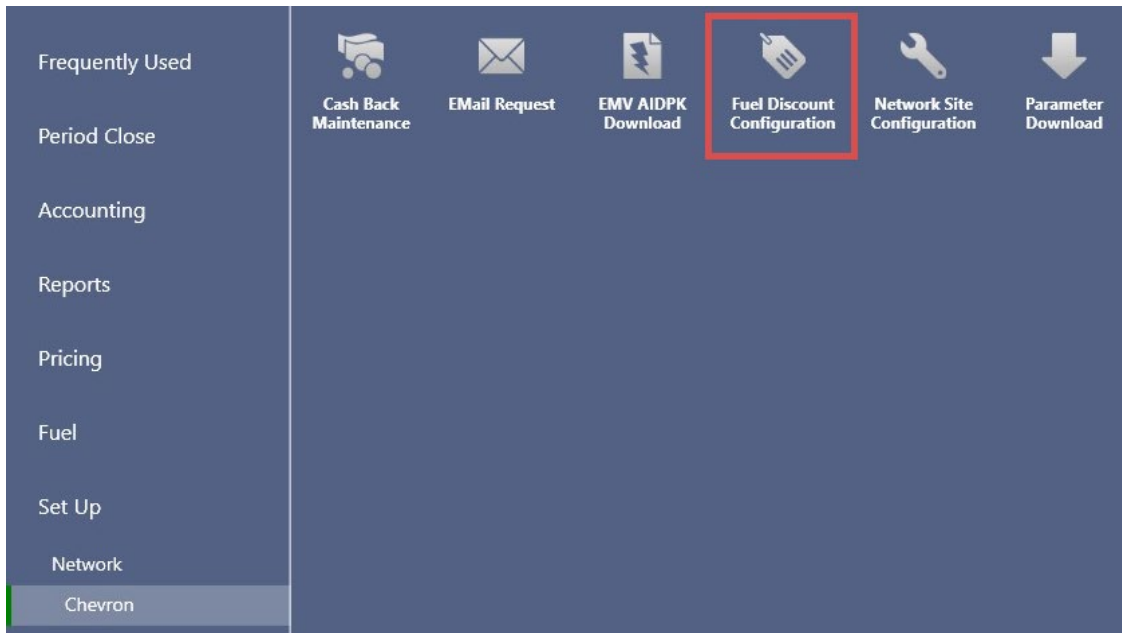

- h. From the Chevron network menu, select the Fuel Discount Configuration button to access the Fuel Discount Configuration screen.

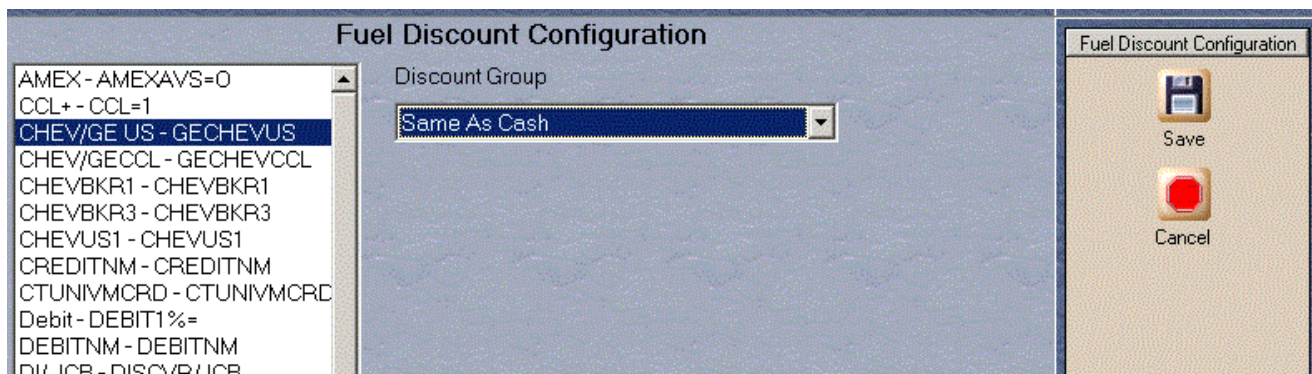

V10 & V11

V12, V20, V21, & V22:

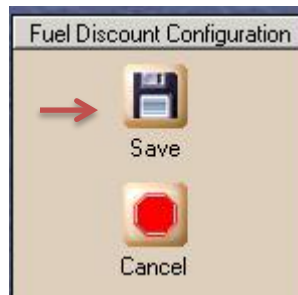

- B.** In the Fuel Discount Configuration Screen, select (to highlight) a card type name (represents an account number range) from the menu on the left side of the screen, and then select the fuel discount group from the Discount Group drop down box. This links the selected card type to the discount group. In this example, a card type represented by the name "CHEV/GE-GECHVUS" has been linked to the fuel discount group "Same As Cash".

- C.** For each card type that needs to be re-linked or added to the discount group, repeat the process of selecting a name from the list and then selecting the discount group from the Discount Group drop down box. Note: the names on a site's Fuel Discount

Configuration screen will not be the same as shown in this example as names are unique to the specific parameter table downloaded to a Passport. The Chevron and Texaco card type names for [common parameter tables](#) as of November 2022 are listed in the table beginning on page 35, and they are subject to change.

- D.** Once the re-linking and/or adding of card types has been completed, select the Save button to save the changes.

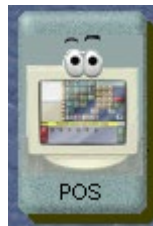

- E.** After saving, selecting the Back button three times will return to the Manager Workstation menu.

V10, V11, & V12:

- F.** Selecting the POS button will return to the Cashier Workstation.

V10, V11, & V12:

V20, V21 & V22:

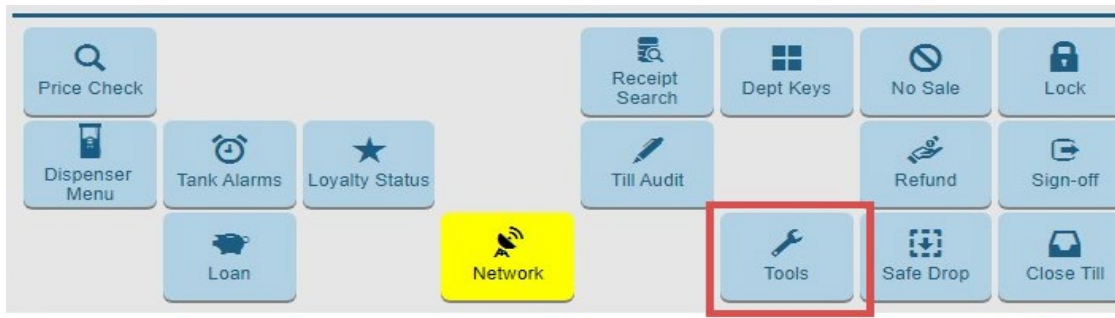

Step 3 – Configure for Mobile App transactions that use Chevron and Texaco, Chevron and Texaco VISA or Chevron and Texaco eGiftcards and ePromo Cards:

- A. From the “server” Cashier Workstation, select the Tools button to access the Manager Workstation.
V10, V11, V12, & V20:

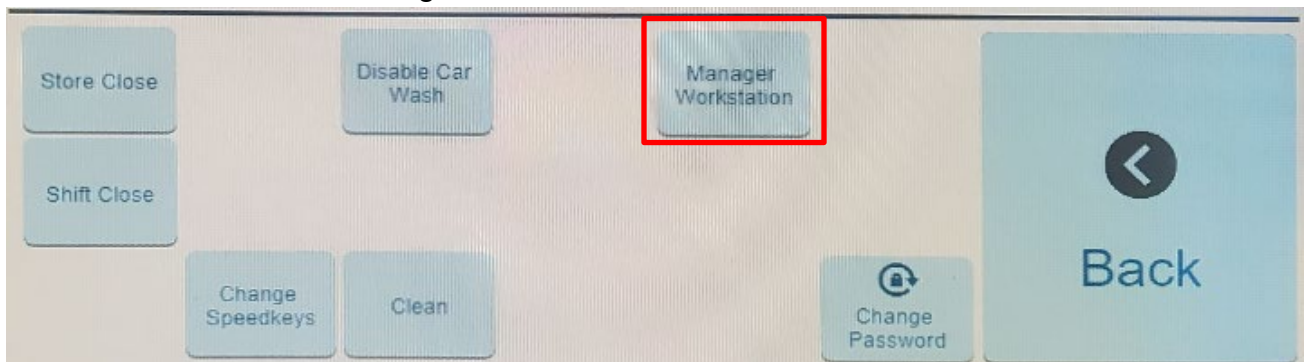

V21 & V22:

- B. V11, V12, V20: Select the Mgr Wkstn button.

- C. V21 & V22: Select the Manager Workstation button.

D. From the Manager Workstation menu, select the Set Up button:

V10 & V11:

V12, V20, V21 & V22:

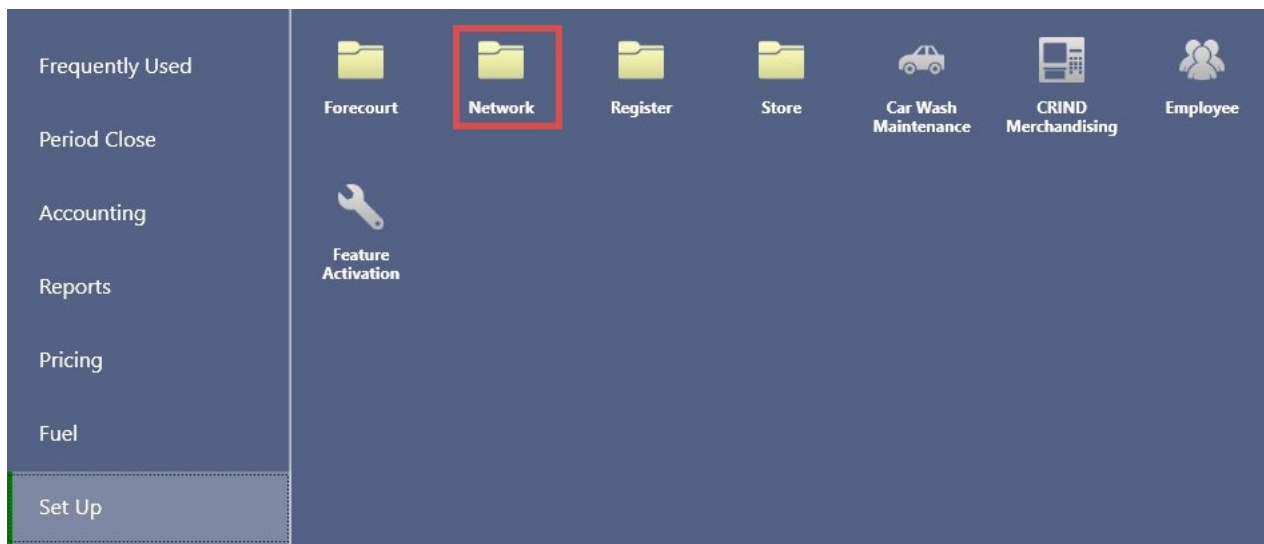

E. From the Set-Up menu, select the Network button:

V10, V11 & V12:

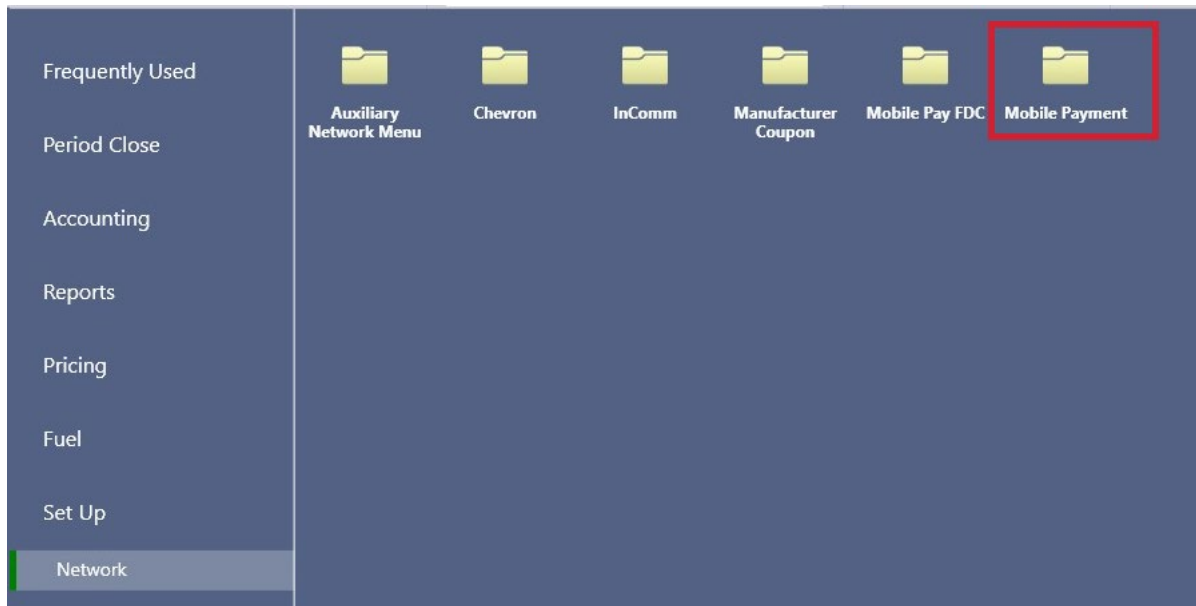

V20, V21, & V22:

F. From the Network menu, select the Mobile Payment button:
V10, V11 & V12:

V20, V21 & V22:

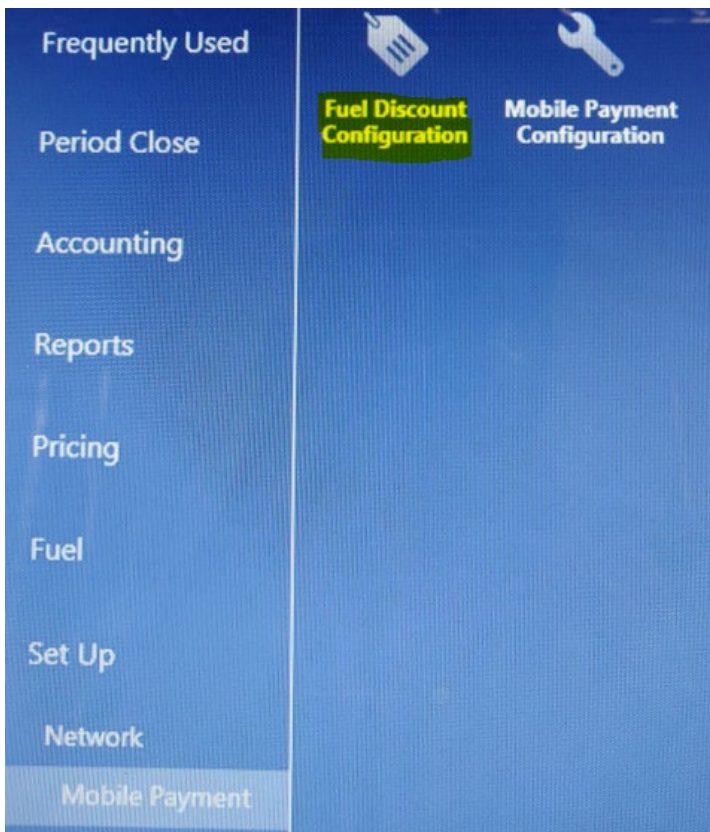

G. From the Mobile Payment menu, select the Fuel Discount Configuration button:

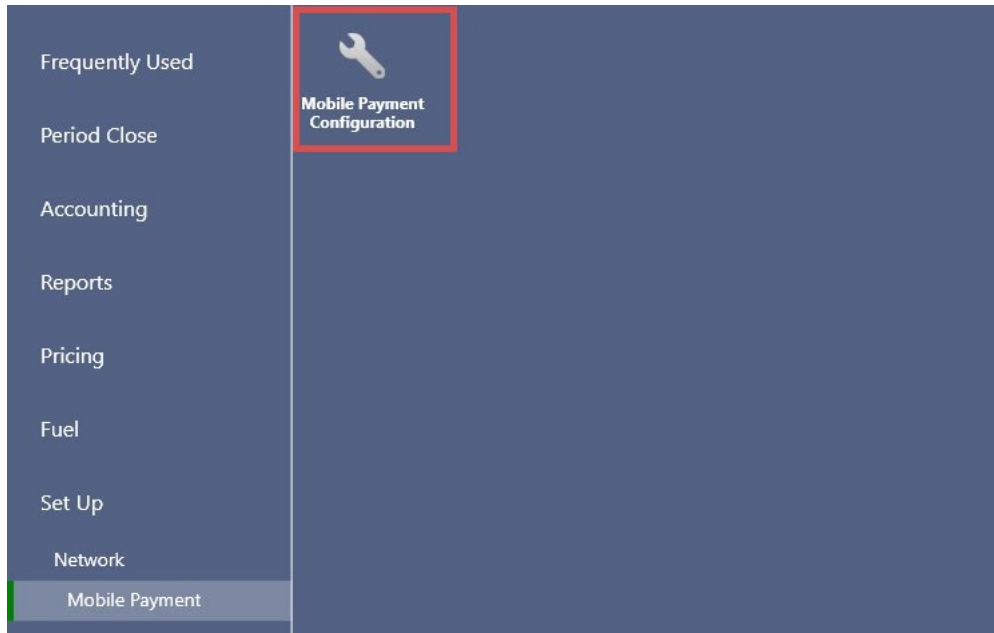

V10 & V11:

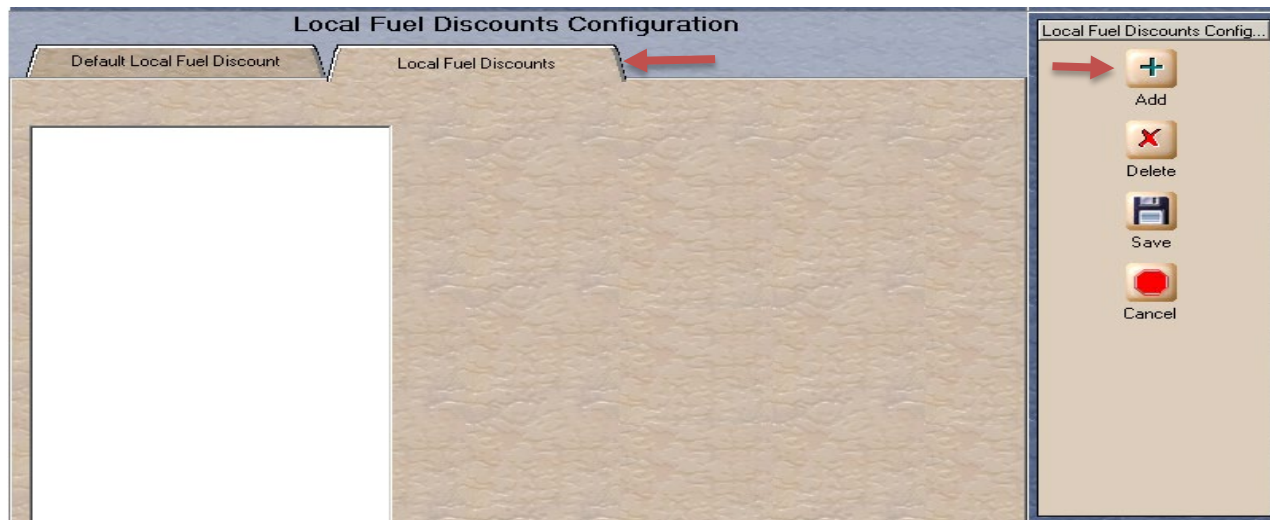

V12:

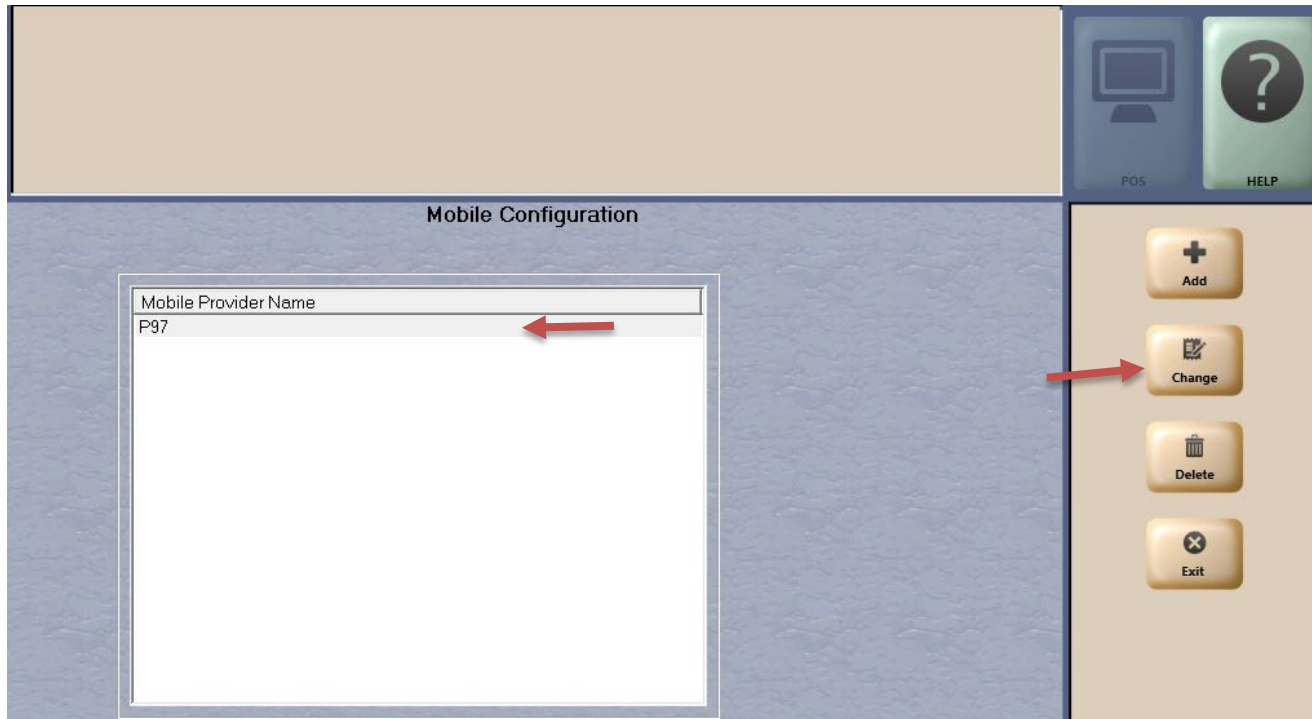

V20, V21, & V22: From the Mobile Payment menu, select the Mobile Payment Configuration button.

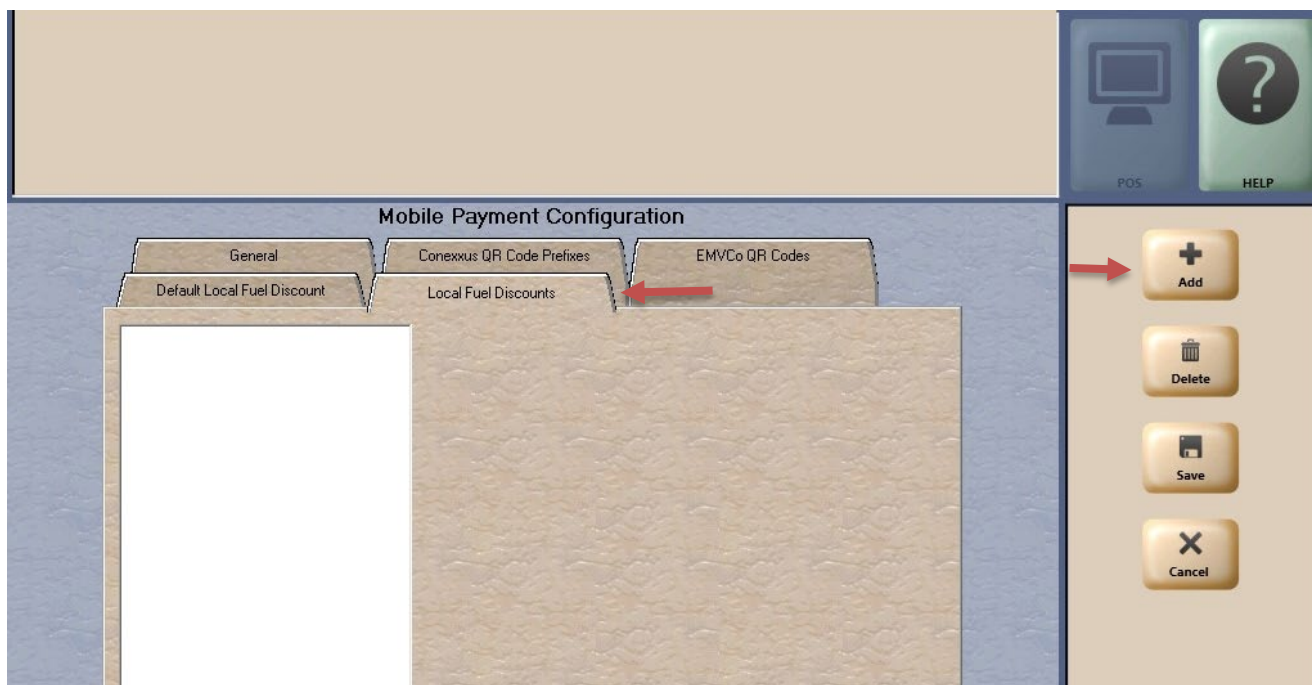

H. On the Local Fuel Discounts Configuration screen, click on the Local Fuel Discounts tab, and then select the Add button:
V10, V11, & V12:

V20, V21 & V22: On the Mobile Configuration, Select the 'Mobile Provider Name' and then click on "Change" button.

- I. On the Local Fuel Discounts Configuration screen, click on the Local Fuel Discounts tab, and then select the **Add** button:

J. Add a mobile payment fuel discount for Chevron and Texaco card use by doing the following:

a. Type "CHEVRON" in the Mobile Local Discount Code text box.

NOTE: When entering the card name it is case sensitive and must be entered exactly as shown.

b. Type "App Based" in the Mobile Local Discount Description text box.

c. Select "Same as Cash" in the Fuel Discount Group drop down box.

d. You do not need to select the Save button at this time.

V20, V21 & V22:

The screenshot displays the 'Mobile Payment Configuration' interface. At the top, there are tabs for 'General', 'Conexus QR Code Prefixes', and 'EMVCo QR Codes'. Below these, the 'Local Fuel Discounts' tab is active, showing a list of discounts. A new entry for 'CHEVRON' is being added. The entry details are as follows:

- Mobile Local Discount Code:** CHEVRON
- Mobile Local Discount Description:** App Based
- Fuel Discount Group:** Same as Cash

Red arrows point to each of these three fields. On the right side of the screen, there are four buttons: 'Add' (with a plus icon), 'Delete' (with a trash icon), 'Save' (with a floppy disk icon), and 'Cancel' (with an X icon). The top right corner of the screen features a 'POS' button and a 'HELP' button (with a question mark icon).

K. Add a mobile payment fuel discount for ChevronVISA card use by doing the following:

- Select the Add button (adds a new Local Fuel Discounts configuration screen).
- Type "CHEVRONVISA" in the Mobile Local Discount Code text box.

NOTE: When entering the card name it is case sensitive and must be entered exactly as shown.

- Type "App Based" in the Mobile Local Discount Description text box.
- Select "Same as Cash" in the Fuel Discount Group drop down box.

if you have questions.

There are several hundred card payment parameter tables configured on the Chevron network. The Chevron card payment network team has added card records for three new Chevron card types to all parameter tables. Commonly used parameter tables are listed in the tables that follow; however, if the Parameter Table Version number in Passport's Network Parameters screen cannot be found in these tables, then one of the following groupings of three Chevron and Texaco card type names will be found in the Fuel Discount Configuration screen. Add those three Chevron and Texaco card type names to the following Chevron and Texaco card type fuel discount groups:

Grouping 1:

Fuel Discount Configuration Card Type Name	Card Type
CT ACCESS-CHEVWD72I	Chevron Business Access (WEX supported)
CT BUS-CHEVWD66I	Chevron Business (WEX supported)
CT DSL-CHEVWD74I	Chevron Business Diesel (WEX supported)

Or

Grouping 2:

Fuel Discount Configuration Card Type Name	Card Type
CT ACCESS-CHEVWD72L	Chevron Business Access (WEX supported)
CT BUS-CHEVWD66L	Chevron Business (WEX supported)
CT DSL-CHEVWD74L	Chevron Business Diesel (WEX supported)

For parameter table numbers 6060, 6061, 6070, 6071, 6080, 6081, 6090, 6091, 6160, 6161, 6170, 6171, 6180, 6181, 6190, 6191.

Fuel Discount Configuration Card Type Name	Card Type
