

Future-Proof Your Electronic Security Investment

Today's increasingly complex business environments demand increasingly sophisticated electronic security systems to protect them from liability and loss. As North America's largest privately-held national security system integrator, NAVCO offers 40 years of experience connecting clients to the right combination of security solutions. We know security. What's more, we understand the unique challenges you face today and how to resolve them, while preparing you to take advantage of ever-changing technology.

More than an electronic security systems vendor, we are your value-added business security partner with unmatched expertise. Collaborating with leading security technology innovators, we bring together the most strategic combination of leading-edge

technologies backed by industry-leading service to protect your people, property and assets or today and tomorrow.

Why trust your business security to NAVCO?

We take a proactive approach to anticipating your future needs and protecting your investments with security solutions that keep you ahead of the technology curve.

With expertise across a broad range of security systems and industries, we converge best-of-class technologies, knowledge, service and support to meet your specific needs.

With a nationwide network of locations, our expertise is always within easy reach. We'll respond quickly to your service calls and requests.

With NAVCO as your trusted partner for complete business security systems and services, you'll spend less time and money managing multiple vendors.

We'll make sure your systems stay up and running, so you can focus on what you do best... growing your business.

Forward-Thinking, Industry-Unique

As your business security needs change, so does the available technology. How can you be sure the investment you make today won't become suddenly obsolete tomorrow? That's where NAVCO comes in.

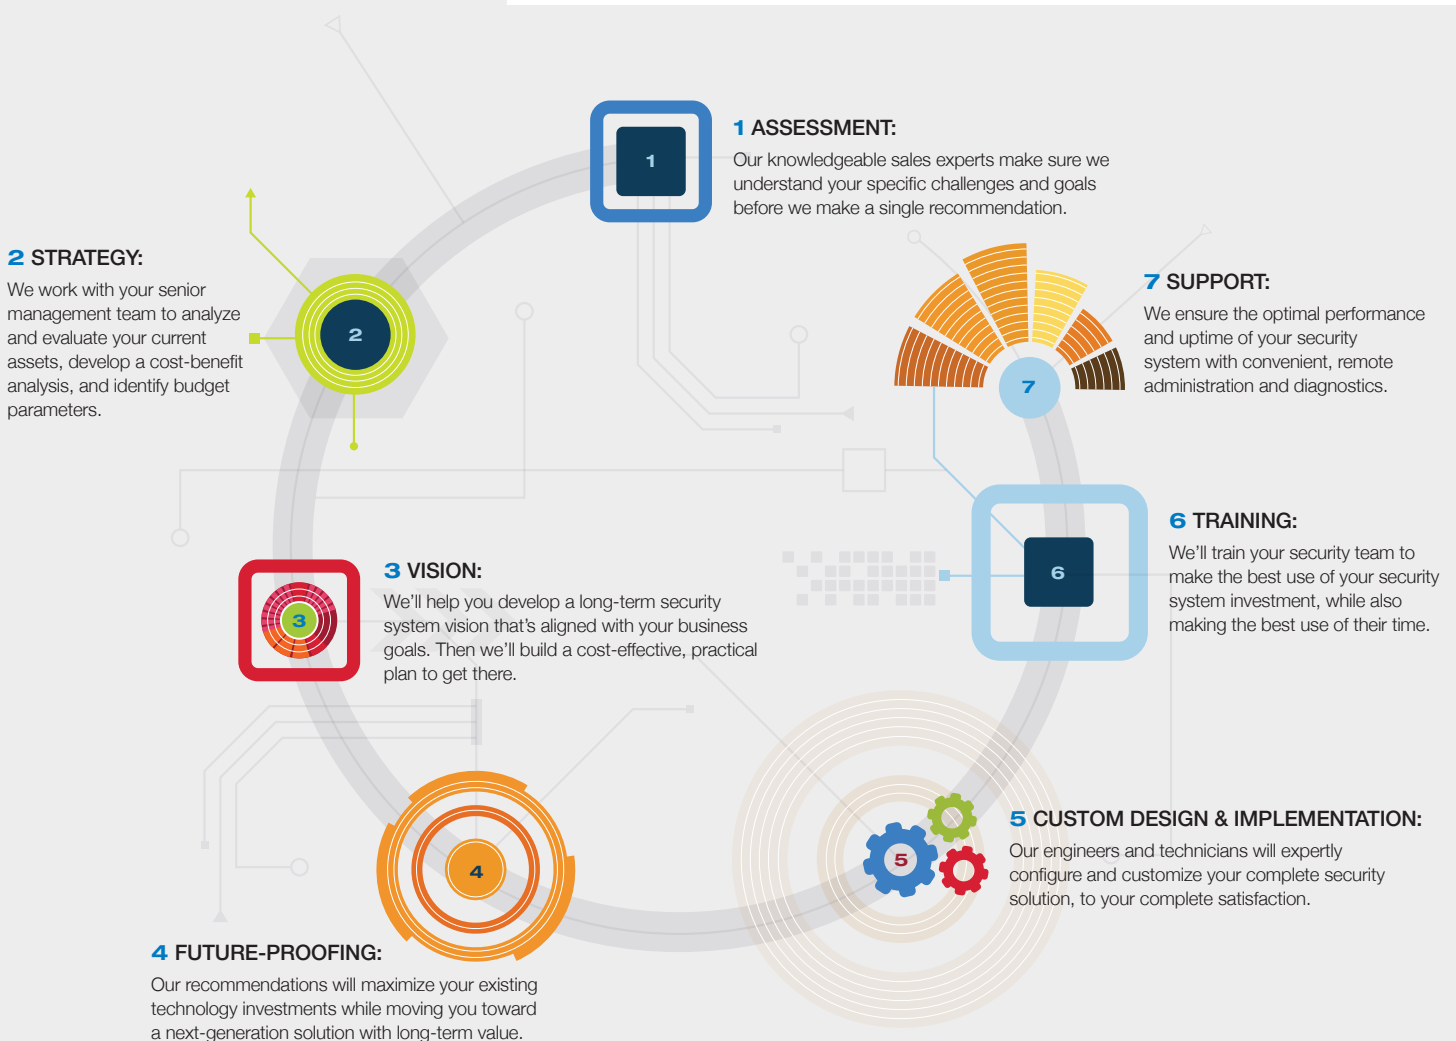

We take a unique, forward-thinking approach to recommending, integrating, implementing and supporting security systems that address your immediate challenges, while protecting your investment from ever-evolving technology.

With NAVCO, Your Future Is Secure. Contact us today to get started.

Staying On Top Of Your Stores

For multi-site convenience stores, ensuring employee safety while reducing inventory shrink is a challenge — and a necessity. Achieving both requires robust electronic security systems that deliver reliable, consistent performance, and transactional information that's simple to confirm in every store. Rely on NAVCO to implement, integrate and support electronic security solutions that connect you to the per-transaction data you need to stop shrink losses and help keep your employees safe and productive.

Standardized systems for multiple stores

NAVCO will work with you to update and unify your electronic security systems across all your stores. What's

more, we'll provide you with remote visibility of all in-store activity, allowing you to track and manage cash register events to reduce shrinkage from anywhere, throughout your network, saving you significant travel time and cost in the process.

The path to future security

We take a forward-thinking approach to your electronic security solutions, bridging the gap between your current security systems and next-generation technology. We'll develop a plan and a solution that paves the way for leading-edge systems such as high-definition IP cameras that give you unprecedented visibility into store transactions.

NAVCO maximizes the value of your security systems to:

- > Protect human resources
- > Reduce liability and risk
- > Deter crime, fraud and shrink losses
- > Scale to meet evolving needs and technologies

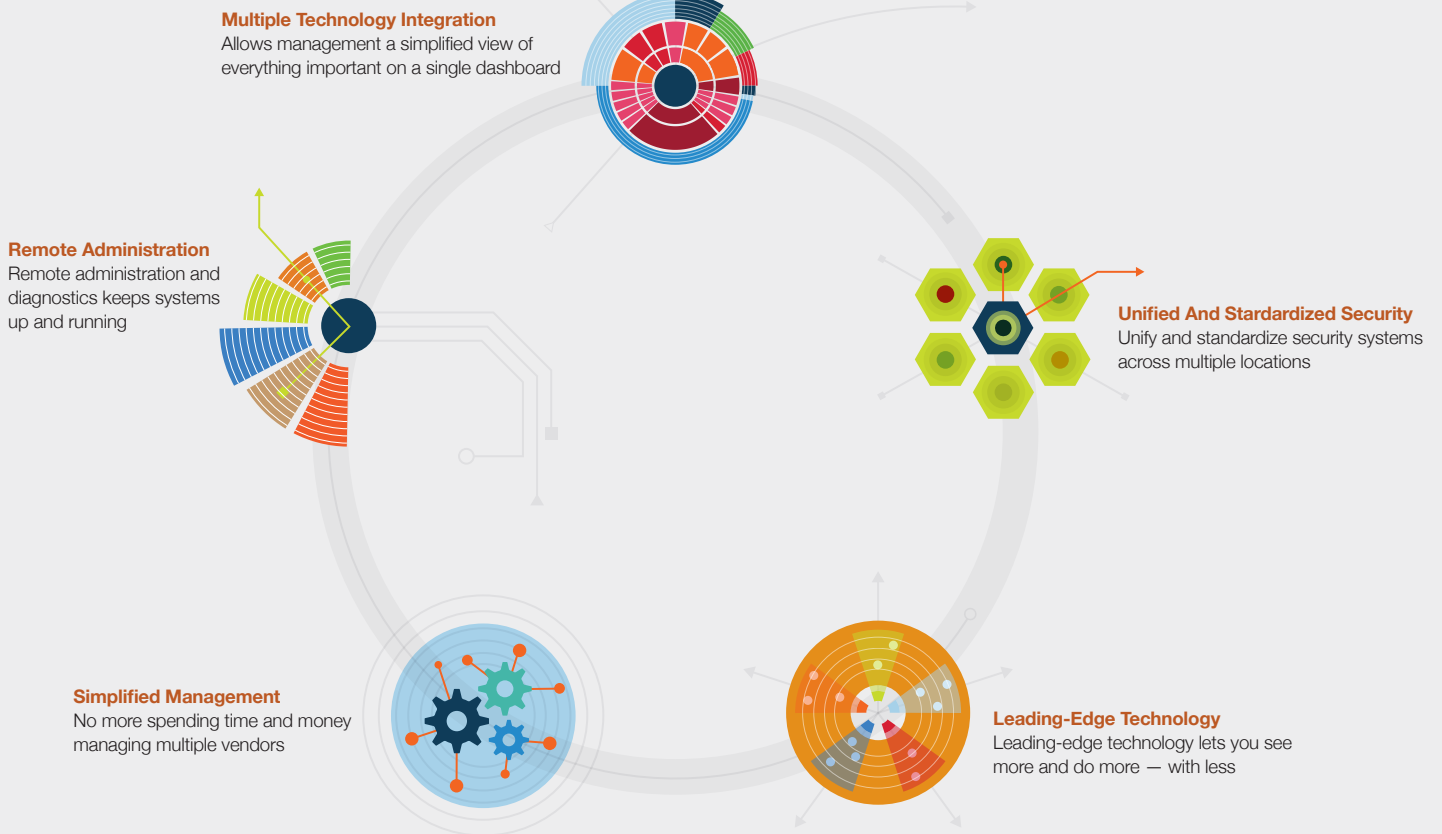

Multi-Site And Custom-Designed

No two convenience store brands have the same challenges or requirements. At NAVCO, our retail experts will work closely with you to understand your unique needs, evaluate your existing security systems, and build a customized electronic security solution that maximizes those investments while anticipating your future requirements.

NAVCO security solutions for the convenience store industry:

- > Video
- > Alarms
- > Access control
- > Remote guard services
- > Remote police dispatch
- > Remote system diagnostics
- > Remote system administration
