

Hazardous Product/Chemical Inventory List

Instructions for completing the Chemical Inventory List:

1. The Chemical Inventory List may contain chemicals that are not at your facility. This does not mean that all the listed chemicals are required to be at your station.
2. Review the list line by line and check (✓) the boxes on the columns on the right side as you verify the chemicals at your station.
 - a. Add the UST capacity information for all tanks on site
 - b. "On Site" – the chemical checked (✓) is being stored and on hand at your station
 - c. "Not On Site" – the chemical checked (✓) is not stored and not on hand at your station.
 - d. "Store Use" – the chemical checked (✓) is handled by station personnel or for store use (this box has been pre-checked)
 - e. "For Sale" – the chemical checked (✓) is sold at your station (this box has been pre-checked)
3. SDSs on hand should be for the chemicals marked as "On Site" only.
4. Any chemicals at your station not listed should be added to the last page(s) of the Inventory List. Include the following information:
 - a. Product Name,
 - b. Manufacturer,
 - c. Address and
 - d. container type and size
 - e. Check (✓) the boxes on the right accordingly.
5. When completed, the Chemical Inventory List must be signed by the person that checked the chemical inventory on site. The Chemical Inventory List must be verified as complete by the D.O., or Business Consultant, or HES.
